Top conference speakers

The quality of the keynote and invited speakers were of the highest level! Having the chance to interact face-to-face with experts in the field of biotechnology was truly a great experience. CBA believes that our diverse and dynamic group of speakers and panelists provided in-depth insight on emerging trends and cutting-edge knowledge advancement in the life science associated topics. We will continue to strive for best to utilize this platform to promote education, networking, and community building for life science professionals among students, post-docs, scientists, entrepreneurs, business community as well as academic institutes.
